Sorry Holly, took me a while to recall/locate where we included a revision we did not act on under 303(c) but addressed it in our ESA Memo. Pls see attached memo for UT 2020 WQS revisions addressing 2 ESA No Effects and 1 No Action for UT incorporating by reference the Colorado River Salinity Forum's recommendations for salts loading. We did not consider incorporating the Forum's recommendations to be a WQS revision (so no CWA 303(c) action) but did acknowledge the change in our action letter/ESA memo.
Hope that's helpful (even if too late for your action)

Thank you so much George. One of the questions Erin asked was whether language in my 7(d) memo that lists actions not subject to ESA consultation should be in the memo since we're not consulting on them. She said she thought that you had previously dealt with that issue.

Thanks.

Hey Holly – nothing very recent, but here's an Oct 2019 UT action using 7d (letter & 7d memo attached).
Dave may have a more recent 7d action example.

Very fun! Did a nice hike, hit 6 wineries for tastings, soaked in the hot tub, and had a nice dinner.

Sorry Holly, nothing recent since we completed consultation for Se approval and arsenic approval was for HHC, so not subject to. Think last 7(d) memo I did was in 2018.

Tonya

Hi George and Tonya, Erin is reviewing my 7(d) memo on ND's WQS and suggested I check with you to see if you have a current 7(d) memo recently reviewed by HQ to make sure the language I'm using is current.

Thanks!
Holly
